2. All day: Sunrise and sunset for Seabrook entry for today (that calendar's own entry, as listed: Sunrise: 4:38am, Sunset: 3:03pm).

3. Nothing else stands on today's calendars in the +agenda listing.

3. Packages (from Gmail, last 7 days, checked 2026-11-04 — this file only, never in the paper)

1. Expected today, Wednesday, Nov. 4: nothing in the mail says a package is arriving today.

2. Delivered in the last day: the Peel and Stick Wallpapers coming from Amazon — Amazon said "out for delivery" on Tuesday, Nov. 3, and Amazon's delivered message arrived early this morning, Wednesday, Nov. 4. That closes the delay from the weekend: the wallpapers were first expected Nov. 1, then delayed.

3. Delivered in the last day: a package coming from Amazon, delivered by UPS Ground on Tuesday, Nov. 3 at 11:43 in the morning. UPS's own message names the sender as Amazon and the delivery time; it does not name the item inside.

4. On the way (not today): the Woot order — a 2-pack Solar Dragon Tree Hugger Garden Statue — has shipped. Woot's message late Tuesday night, Nov. 3 says the order is on its way by UPS with standard delivery (3 to 8 business days). Woot's order message on Nov. 2 gave an estimated delivery date of Thursday, Nov. 12.

5. Delays, reschedules, or problems: none new in the mail. The wallpaper delay under item 2 is resolved by its delivery.

25. Payson Roundup pull-in story: the Roundup's site and its Instagram were checked this morning. No new local business opening or local good-news story was verified for today — the front page items found were an events-calendar feature and a history column, not a business opening or good-news story.

5. The Morning Record

1. The Payson Morning Scroll for Wednesday, Nov. 4, 2026 stands published (Merchant of the Hold: Superstition Meadery, Prescott; tale: The Loaf That Followed the Sun; 4 pages).

1a. Scroll publish quotes, from the chain verify log ~/workspace/morning-post/batch/logs/verify-2026-11-04-20261104-104433.log: --finish verdict — "VERDICT: PASS" (attempt 2, after the first attempt hit GitHub Pages lag with 404s). PDF checksum pair, copied from that log's PASS line for the PDF: manifest md5 d1d2e0af0be654f705af4dc9c9dcfeea / live md5 d1d2e0af0be654f705af4dc9c9dcfeea — the pair matches.

1b. Clock re-check: the 06:10 re-check for today had not reported yet when this record was written — no clock-verify file for 2026-11-04 stands in the batch logs. Yesterday's clock file was checked as well: no clock-verify file for 2026-11-03 stands there either (the newest clock file there is dated 2026-10-17), and no FAIL stands in any clock file found.

1c. Listen lines: every part of the paper recorded clean — the lead story, Happening in the Holds Today, The Days Ahead, Merchant of the Hold, and Tales from the Treeline — each part's record file stands with its recording at the recorded size, the paper carries all five listen lines, and each recording was published with the edition (every send ended VERDICT:

PASS). No part's listen line is missing. The whole-edition recording stands on the manifest at audio/morning-scroll-2026-11-04.mp3 (5,630,477 bytes) and verified live in the --finish PASS run; the voice queue stands empty. One note from the publish itself: the first send of the 25 edition files ended VERDICT: FAIL because a single picture file (images/scroll-img-a66bfed2dd.jpg) hit a server timeout; that one file was sent again on its own and ended VERDICT: PASS, and the live verify then passed on all 25 files.

1d. Hearth prop inventory: step 9's check read VERDICT: MATCH — the state SHA matches the GitHub SHA — so no publish was needed and no inventory line is owed.

2. Batch processing last night — numbered list, each line read from that job's own dated verify log for 2026-11-04:

1. Morning Scroll chain — completed. Its named verify log (above) ends VERDICT: PASS, and no clock FAIL stands against it. Its pile line reads: "edition published, chain VERDICT: PASS, checksum pair matched" — it agrees with the verify log.

2. Gilded Pages verify — had an error — needs your attention. Its log (~/workspace/batch-logs/gilded-pages-healthcare-rollout/2026-11-04.log) ends VERDICT: FAIL — no slugs in slugs file. Its pile lines agree: "ERROR — 0 entries published - no publishable entries remain; all 7 re-checked holds still need phone checks that cannot be made from here; batch verify VERDICT: FAIL - no slugs in slugs file (index check MATCH, live page unchanged)".

3. yard sales verify — had an error — needs your attention (no report found). No log for 2026-11-04 stands in ~/workspace/batch-logs/yard-estate-sales-refresh/ when this record was written.

4. Steward's Ledger verify — had an error — needs your attention (no report found). No log for 2026-11-04 stands in ~/workspace/batch-logs/stewards-ledger-daily/ when this record was written.

5. GitHub billing report — had an error — needs your attention (no report found). No log for 2026-11-04 stands in ~/workspace/batch-logs/github-billing-watch/ when this record was written.

6. health pull — had an error — needs your attention (no report found). No log for 2026-11-04 stands in ~/workspace/batch-logs/health-pull/ — that folder's newest log is dated 2026-10-18.

7. Hearth publish check — completed. Its dated log (~/workspace/batch-logs/hearth-publish-check/2026-11-04.log) ends VERDICT: MATCH, so no inventory publish was owed.

Mismatch count today: 0 (target 0). Counted across the seven lines above: each job's recorded words dated today were compared with the state its named dated log gives. The Scroll chain's recorded clean finish matches its PASS log; the Gilded Pages recorded ERROR matches its FAIL log; the Hearth check's log says MATCH and no recorded words disagree; yard sales, the Ledger, billing, and the health pull have no log for today and no recorded clean finish standing against that.

3. Completion pile — every line not yet marked REPORTED when this record was written, in its own words:

25. Morning Scroll chain | 2026-11-04 | edition published, chain VERDICT: PASS, checksum pair matched. (Carried in batch line 1 above.)

26. Older pile lines: the STARTED stubs dated Oct 21 – Nov 4 still stand unmarked in the pile; every one belongs to a run whose finish line was reported on its own morning or stands in the lines above, so they are counted here once, as a group, and not listed again one by one.
