Last night's KPIs — Wednesday, November 11, 2026

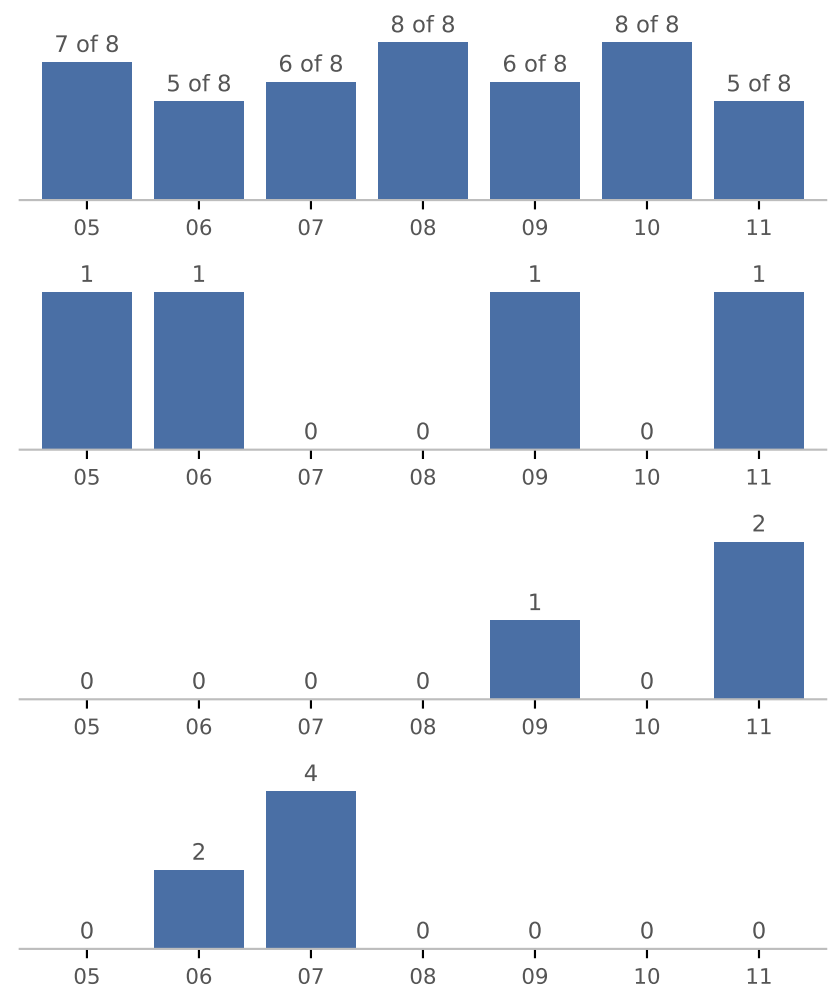
Problems found

One run failed: Morning briefing. Two runs left no record: Morning Scroll chain, Daily walk watch.

The counts

Each line: last night, and the last 7 nights (November 05 to November 11, oldest first).

Finished by 5:00 AM — last night: 5 of 8

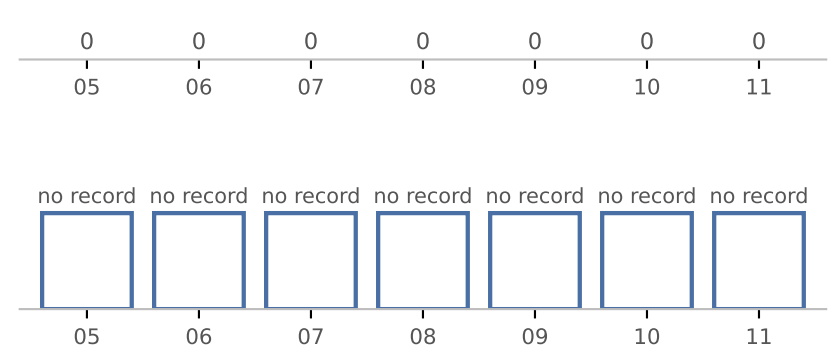


Failed runs — last night: 1

Runs with no record — last night: 2

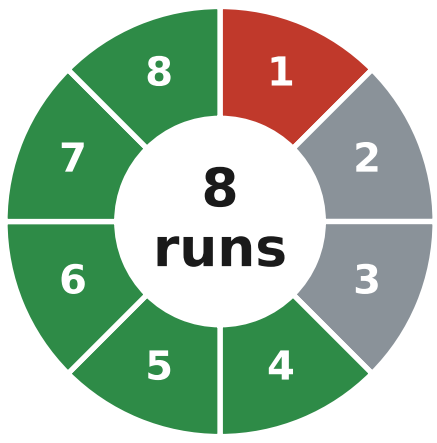
Retries — last night: 0

Mismatch count — last night: 0



Reply gate — stopped replies — last night: no record

The runs — one slice for every run in the set, numbered to match the list



1. **Morning briefing — failed**

   The Scroll chain stopped at gate item 104 on a GitHub 403 rate limit, so the edition was built but not published.

2. **Morning Scroll chain — no record**

   The job's run stood at failed at the check. No verify record for the night was found.

3. **Daily walk watch — no record**

   No verify record for the night was found.

4. **Healthcare providers job — finished**
5. **Yard and estate sales — finished**
6. **Steward's Ledger — finished**
7. **GitHub billing watch — finished**
8. **Daily escrow update — finished**

Yesterday's Discussion Temperature

10:50 — a direct opinion on the meat advice and his own eating — NOT MET: the answer stood on both sides and pointed to a clinician talk he had already rejected, and diverticulitis was heard as diabetes
and 6 more line(s)

All counts read from the night record of 2026-11-11 and the night records of the earlier nights (2026-11-05, 2026-11-06, 2026-11-07, 2026-11-08, 2026-11-09, 2026-11-10), in /home/hatch/workspace/goals/morning-agenda-briefing/hidden_files/morning-kpi-records, and from the family photo store /home/hatch/workspace/family-photo-site/access-counts/daily-counts.csv. The reply gate counts read from the gate count files in /home/hatch/workspace/morning-kpi-page.
