5. The Morning Record

1. The Payson Morning Scroll for Thursday, Nov. 5, 2026 stands published (Merchant of the Hold: Fargo's Steakhouse, Payson; tale: The Sun Jethro Painted; 4 pages).

1a. Scroll publish quotes, from the chain verify log ~/workspace/morning-post/batch/logs/verify-2026-11-05-20261105-105119.log: --finish verdict — "VERDICT: PASS" (attempt 2, after the first attempt hit GitHub Pages lag with 404s). PDF checksum pair, copied from that log's PASS line for the PDF: manifest md5 adb0be6a68532b961a945c6b10ba52c3 / live md5 adb0be6a68532b961a945c6b10ba52c3 — the pair matches.

1b. Clock re-check: the 06:10 re-check for today had not reported yet when this record was written — no clock-verify file for 2026-11-05 stands in the batch logs. Yesterday's clock file was checked as well: no clock-verify file for 2026-11-04 stands there either (the newest clock file there is dated 2026-10-17), and no FAIL stands in any clock file found.

1c. Listen lines: every part of the paper recorded clean — the lead story, Happening in the Holds Today, The Days Ahead, Merchant of the Hold, and Tales from the Treeline — each part's record file stands with its recording at the recorded size, the paper carries all five

listen lines, and each recording was published with the edition (every send ended VERDICT: PASS). No part's listen line is missing. The whole-edition recording stands on the manifest at audio/morning-scroll-2026-11-05.mp3 (5,794,253 bytes) and verified live in the --finish PASS run; the voice queue stands empty. One note from the publish itself: the first send of the 29 edition files ended VERDICT: FAIL because a single picture file (images/scroll-img-a66bfed2dd.jpg) hit a 401 bad-credentials answer on its try; that one file was sent again on its own and ended VERDICT: PASS, and the live verify then passed on all 29 files.

1d. Hearth prop inventory: step 9's check read VERDICT: MATCH — the state SHA matches the GitHub SHA — so no publish was needed and no inventory line is owed.

2. Batch processing last night — numbered list, each line read from that job's own dated verify log for 2026-11-05:

1. Morning Scroll chain — completed. Its named verify log (above) ends VERDICT: PASS, and no clock FAIL stands against it. Its pile line reads: "edition published, chain VERDICT: PASS, checksum pair matched" — it agrees with the verify log.

2. Gilded Pages verify — had an error — needs your attention. Its log (~/workspace/batch-logs/gilded-pages-healthcare-rollout/2026-11-05.log) ends VERDICT: FAIL — no slugs in slugs file. Its pile lines agree: "ERROR — 0 entries published — all 7 remaining holds re-checked fresh today and still held, batch verify VERDICT: FAIL (no slugs, index MATCH)".

3. yard sales verify — had an error — needs your attention (no report found). No log for 2026-11-05 stands in ~/workspace/batch-logs/yard-estate-sales-refresh/ when this record was written.

4. Steward's Ledger verify — had an error — needs your attention (no report found). No log for 2026-11-05 stands in ~/workspace/batch-logs/stewards-ledger-daily/ when this record was written.

5. GitHub billing report — had an error — needs your attention (no report found). No log for 2026-11-05 stands in ~/workspace/batch-logs/github-billing-watch/ when this record was written.

6. health pull — had an error — needs your attention (no report found). No log for 2026-11-05 stands in ~/workspace/batch-logs/health-pull/ — that folder's newest log is dated 2026-10-18.

7. Hearth publish check — completed. Its dated log (~/workspace/batch-logs/hearth-publish-check/2026-11-05.log) ends VERDICT: MATCH, so no inventory publish was owed.

Mismatch count today: 0 (target 0). Counted across the seven lines above: each job's recorded words dated today were compared with the state its named dated log gives. The Scroll chain's recorded clean finish matches its PASS log; the Gilded Pages recorded ERROR matches its FAIL log; the Hearth check's log says MATCH and no recorded words disagree; yard sales, the Ledger, billing, and the health pull have no log for today at this writing and no recorded clean finish dated today standing against that.

3. Completion pile — every line not yet marked REPORTED when this record was written, in its own words:

24. Morning Scroll chain | 2026-11-05 | edition published, chain VERDICT: PASS, checksum pair matched. (Carried in batch line 1 above.)

25. Older pile lines: the STARTED stubs dated Oct 21 – Nov 5 still stand unmarked in the pile; every one belongs to a run whose finish line was reported on its own morning or stands in the lines above, so they are counted here once, as a group, and not listed again one by one.
