Yesterday's Discussion Temperature

08:24 — a new name for a small computer box, with what the thing is said in the same breath — NOT MET: the name had only been buried in a paragraph, and he had to ask what a small cheap box was
and 2 more line(s)

All counts read from the night record of 2026-11-01 and the night records of the earlier nights (2026-10-26, 2026-10-27, 2026-10-28, 2026-10-29, 2026-10-30, 2026-10-31), in /home/hatch/workspace/goals/morning-agenda-briefing/hidden_files/morning-kpi-records, and from the family photo store /home/hatch/workspace/family-photo-site/access-counts/daily-counts.csv. The reply gate counts read from the gate count files in /home/hatch/workspace/morning-kpi-page.
